that last forever*

## How it works...

### *Scanning & Editing ~*

When you bring your pictures to the funeral home, each will be scanned & edited for creating a meaningful keepsake. The scanning and editing of your photos will be done personally by one of our funeral home staff to ensure their quick return to your family. We do ask that you give the photos to us in the order you want them shown.

### *Movie Creation ~*

Once completed, the scanned photos are made into a slideshow with the background music of your choice. We encourage your family to bring in the songs you want, but if you'd like, we are willing to help you find songs that are appropriate.

### *Presentation ~*

Once completed, your movie will be saved as a DVD (complete with label and case) for your family to keep. Additional copies can be made as well. During the visitation, the movie can be played for friends and family to enjoy.

## Tips for your DVD

- Bring the pictures to the funeral home in the order you want them presented (photos or digital images are fine)
- Bring any music that you feel would be significant for your loved one (If they loved Free Bird, bring Free Bird)
- If you can't decide on certain songs, have an idea of music style or genre. We'll take care of the rest.
- Include captions on the backs of pictures including dates, places, who's who, etc.
- Include significant video clips that you might want on the DVD

### Pre-arranging?

- If you pre-arrange with us, you can bring in photos for us to scan to begin creating your memorial DVD
- Want to leave a message? When you pre-arrange with us you have the opportunity to leave a recorded video farewell message for your loved ones that we will include on your memorial DVD.
